

Supplementary Figure 1. Follicular density by BRCA1 and BRCA2 mutation status (post-hoc analysis)

The median is shown by the line that divides the box into two parts; the range of scores from the lower to upper quartile is marked by the box; the whiskers stretch from the 5th percentile to the 95th percentile.

Abbreviations: n/mm², number of follicles per 1 mm² area of ovarian cortex; BRCA 1, Breast Cancer Susceptibility Gene 1; BRCA 2, Breast Cancer Susceptibility Gene 2.
