

**Supplementary Table S3.** Clinical success by indication for the index event of bacteraemia (univariate analysis).

	<b>Indication: bacteraemia</b>				
	<b>No (n=543)</b>	<b>Yes (n=17)</b>	<b>Missing (n=1)</b>	<b>Total (N=561)</b>	<b>Univariate logistic model</b>
<b>Index infection considered as a clinical success by the investigator<sup>a</sup>, n (%)</b>					
No	145 (26.7)	1 (5.9)	0	146 (26.0)	<i>P</i> =0.089
Yes	398 (73.3)	16 (94.1)	1 (100)	415 (74.0)	

<sup>a</sup>Analysis includes only those with known status for clinical success; responses of ‘unknown’ are considered as missing data.
