December 2023

## Experimental and Integrative Approaches to Robo-Ethics

### Issue Editors:

- Francesco Bianchini,
- Luisa Damiano,
- Edoardo Datteri,
- Pierluigi Graziani

12 articles in this issue

1. **Experimental and Integrative Approaches to Robo-ethics. An Introduction**
2. **Responsible Social Robotics and the Dilemma of Control**
3. **A Taxonomy of Factors Influencing Perceived Safety in Human–Robot Interaction**
4. **Ethics and Robot Democratization: Reflecting on Integrative Ethics Practices**
5. **Integrative Robo-Ethics: Uncovering Roboticians' Attitudes to Ethics and Moving Forward**
6. **Artificial Emotions: Toward a Human-Centric Ethics**
7. **Ethical Considerations from Child-Robot Interactions in Under-Resourced Communities**
8. **Correction to: Ethical Considerations from Child-Robot Interactions in Under-Resourced Communities**
9. **Social Robotics and Synthetic Ethics: A Methodological Proposal for Research**
10. **Ethics & Robotics, Embodiment and Vulnerability**
11. **The Psychological Implications of Companion Robots: A Theoretical Framework and an Experimental Setup**
12. **A Storytelling Robot Managing Persuasive and Ethical Stances via ACT-R: An Exploratory Study**
