

Authorship change request

Important information. Please read before completing this form.

This form is to request any change in authorship (additions, removals, or reordering) of a submitted manuscript, including changes in corresponding authors. This form should not be used for changes requested *after* publication or for [name changes or corrections](#).

Prior to completing this form, all authors should carefully review the 'duties of authors' section of the [Elsevier publishing ethics policy](#), and in particular, the sections on:

- Authorship of the paper
- The use of generative AI and AI-assisted technologies in scientific writing

Please also carefully review the journal's guide for authors (this might also be referred to as 'instructions for authors') as some journals may have additional authorship criteria (e.g., the ICMJE guidelines for authorship).

The publisher and editor cannot investigate or mediate any authorship disputes. If you are unable to obtain agreement from all authors, including those you intend to remove, we recommend seeking guidance from your institution. We will not consider your change request and will not proceed with the publication of your manuscript until all outstanding authorship disputes are resolved.

In order for the request to be considered, this completed form should be submitted in Editorial Manager with the cover letter for your revision.

Section 3. Author order and agreement

Provide the author list in the order that you would like it to be published.

The form must be signed individually by each author, including any added/removed authors. In cases of multi-author collaborative or consortia groups the corresponding author must sign on behalf of the group.

While manual signatures are acceptable, we highly encourage the use of electronic signature software (DocuSign, Adobe Sign, HelloSign, or similar) with valid e-signatures. These signatures should reflect your institutional information and email, as provided in the author list below. Typed signatures or images of signatures will not be accepted.

By signing this form all authors agree:

- 1) that they have read and acknowledge the publishing ethics policies linked in the "Important Information" section of this form;
- 2) agree to the addition and/or removal of the authors listed in section 2 and to the revised order of the author list in this section 3, and;
- 3) that all information provided accurately reflects the authorship of the article.
