Data

Additional Information: ClinicalTrials.gov Identifier: NCT05687903

<https://www.clinicaltrials.gov/study/NCT05687903>

Data available: Yes

Data types: Deidentified participant data

How to access data: Brian.Harel@Takeda.com

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: The datasets will be made available after the publication of study results within 3 months from initial request to researchers who provide a methodologically sound proposal.

Types of analyses: The datasets will be made available to researchers who provide a methodologically sound proposal.

Mechanisms of data availability: After approval of a methodologically sound proposal.

Any additional restrictions: The data will be provided after its de-identification, in compliance with applicable privacy laws, data protection, and requirements for consent and anonymization.
