

Supplementary Material Figure S1

Chemical structures of the standard polyphenols involved in this study

Malvidin-3-O-glucoside (Mv-3-O-glc)

Caffeic acid (CAF)

(+)-Catechin (CA)

Syringic acid (SI)

Supplementary Material Figure S2

Spectral profiles of the copigmentation experiment for the couple Mv-3-O-glc/SI after 12 months storage.
