

# LIPIDOGRAM METHOD

Example of overlapping of all standard chromatograms with matrix (sample KRONOS).

Example of overlapping of all standard chromatograms with matrix (sample AUREO).

# Single chromatograms of matrix

## SAMPLE AUREO

## SAMPLE KRONOS

## Single chromatograms standards

FFA

Tridecanoic acid; Stearic acid;

MAG

Monomiristin; Monostearin;

## DAG

### Dipalmitin; Distearin;

## STEROL

B-Sitosterol 60%, also containing other sterols, primarily campesterol, was specially chosen.

## Cholesteryl palmitate;

## TAG

### Tripalmitin; Tristearin;
